INTRODUCTION

This supplementary bibliography is an update of the annotated bibliographic listings presented in an earlier document, Review of Literature.* It is offered to keep adult educators and teacher trainers up-to-date on literature, reports and resources which have been brought to the attention of this Center since June, 1972.

In anticipation of a revised and expanded version of the Review, to be released in November, 1974, a few changes have been made in the format and content of the 122 bibliographic listings.

All references to documents in the present listing are made in standard bibliographic format, listing author or editor first, whenever that information is available. Commercially published books have been eliminated from this listing, since they are already indexed in library card catalogs. Dissertation abstracts have also been excluded, since they can easily be identified through a search of Dissertation Abstracts.

Some periodical articles have been included in the present listing, to facilitate locating them. However, the reader is encouraged to further search the Educational Index and specific journals or other periodicals whose primary areas of focus are adult education, personnel training, reading, language development, English as a second language, etc.

Unless otherwise indicated, the documents listed in this bibliography are avalable from EDRS:

Abstracts of documents listed can be obtained by specific request made to the Center for Resource Development in Adult Education. The revised and expanded version of the Review of Literature should be completed by November, 1974.
